

Acumatica Development Services for VARs

 From the 2026 Acumatica Development Excellence Award winner

WHO WE ARE

Sprinterra is an **Acumatica ISV and Development Service Provider** headquartered in New York. We have been working on the Acumatica platform since 2013, recognized with the Acumatica Development Excellence Award 2026 and with MVPs on staff in both 2025 and 2026, and trusted directly by Acumatica. As an ISV, we also build and maintain our own products on the platform - including a Property Management module and a Cash Basis Reporting module, both in active use by Acumatica customers today.

We work as the technical arm for Acumatica VARs across North America, Europe, and Australia. Your clients see seamless delivery. We handle everything behind it. White-label or co-branded - your call.

WHAT WE OFFER

CUSTOMIZATION DEVELOPMENT

Modules, screen modifications, solution design, business logic extensions, and third-party integrations built for your clients' specific workflows. **Modern UI-native development for all new builds.**

MODERN UI MIGRATION

Classic UI reaches end-of-life in Acumatica 2026 R2. **We deliver the full migration service** - portfolio audit, impact assessment, screen-by-screen conversion, and go-live support.

TURNKEY VERSION UPGRADES

End-to-end upgrade service built around a proven 5-step process: environment audit, customization migration, automated regression testing, coordinated upgrade execution, and two weeks of post-upgrade stabilization.

UPGRADE AUTOMATION TOOLS

Proprietary tools that **accelerate and de-risk every upgrade cycle**. Our AI Environment Analysis Agent maps real usage patterns across every screen and workflow, so post-upgrade testing is precise, not guesswork.

WHY SPRINTERRA

Transparent scoping and predictable delivery

Trusted and referenced directly by Acumatica

Free assessment included with any engagement

Acumatica Services Overview

✓ Transparent, predictable rates

✓ No hidden fees

✓ Volume discounts built in

HOW IT WORKS

1 SEND US YOUR REQUIREMENTS

Share the scope — a new customization, an integration, an upgrade task, or a Modern UI migration. No formal RFP needed.

2 WE ESTIMATE AND SCOPE

We assess the work and **return a transparent estimate in hours**. You see exactly what you are approving before anything begins.

3 YOU APPROVE

No work starts without your sign-off. Hours are only deducted after approval.

4 WE DELIVER

Your dedicated team executes. You receive regular updates on hours used and remaining balance throughout the engagement.

FULL VISIBILITY, FULL CONTROL — NO SURPRISES
