

Get More Out of Acumatica

Customizations, upgrades, integrations, and expert support - all from an award-winning team

WHO WE ARE

Sprinterra is a New York-based software development company that has been focused on the Acumatica platform since 2013. We work directly with Acumatica - and with the companies that run their business on it - to make sure the system fits the way you actually work.

We are not a generalist IT firm. We are not a reseller. **We are an Acumatica-only technical team, brought in when you need the system to do more**

WHAT WE DO FOR YOU

MAKE YOUR SYSTEM WORK YOUR WAY

Your business has processes that don't fit a standard setup. We build the screens, workflows, and automations you need - so Acumatica works the way your team works, not the other way around

CONNECT YOUR BUSINESS TOOLS

Acumatica shouldn't be a silo. We build and maintain integrations between your ERP and the other systems your business depends on - HR, payroll, CRM, e-commerce, logistics, and more

KEEP YOUR SYSTEM CURRENT

Falling behind on Acumatica versions creates risk - compatibility issues, unsupported customizations, and mounting technical debt. We handle the full upgrade process so your system stays current and stable

MODERNIZE YOUR INTERFACE

Acumatica's new Modern UI is faster, cleaner, and built for the way people work today. If your team is still on the legacy interface, we handle the full migration - every custom view, every workflow - with zero disruption to your operations

GET MORE FROM THE SYSTEM YOU ALREADY HAVE

Most businesses use a fraction of what Acumatica can actually do. We review how your team is working in the system today - what is working, what is not, and where you are doing manually what Acumatica could handle for you - and give you a clear, prioritized list of improvements

END-OF-LIFE

ACUMATICA'S CLASSIC UI REACHES END-OF-LIFE IN 2026 R2

If your system has any custom screens built on the legacy interface, they will need to be updated. Now is the time to plan - Sprinterra is already executing these migrations for Acumatica customers.

WHY SPRINTERRA

 Acumatica Development Excellence Award 2026

 Nominee: Acumatica Innovative Solutions Award 2026

 MVPs on staff - Acumatica 2024, 2025, and 2026
